## MASSACHUSETTS SAVINGS BANKS

### *Total Assets*

The combined resources of the 190 savings banks amounting to \$3,649,762,106 as of October 31, 1949, represented an increase of \$54,919,705 over the previous year's figure. Thus the year-to-year growth trend continued for the eleventh consecutive period although in diminished volume, as shown in the following table.

Year	Total Assets as of Oct. 31 (in thousands of dollars)	Increase (in thousands of dollars)	Percentage of Increase
1938	\$2,377,138	—	—
1939	2,393,217	\$16,079	.68
1940	2,396,353	3,136	.13
1941	2,401,212	4,859	.20
1942	2,408,614	7,402	.31
1943	2,558,465	149,851	6.22
1944	2,794,543	236,078	9.23
1945	3,121,149	326,606	11.69
1946	3,409,586	288,437	9.24
1947	3,526,835	117,249	3.44
1948	3,594,842	68,007	1.93
1949	3,649,762	54,920	1.53

### *Investments in Securities*

The net book value of \$2,487,742,369 covering all securities classifications represents 68.16% of total assets and reflects a decrease of approximately \$40,-851,000 for the yearly period.

Holdings of United States Government securities and guaranteed obligations continued the decline which started in the previous year, although this year's shrinkage of \$46,435,558 is somewhat below last year's decrease, approximating \$53,110,000. Despite the present trend however, holdings in United States

government obligations remain substantially the major investment of savings banks with the present book figure of \$2,009,068,449 representing 57.52% of total assets and 84.38% of total investments in securities.

Railroad obligations, which hold a second position, although a distant one, to United States Governments in the matter of securities ownership volume, continued the resurgence in popularity begun during the year ending October 31, 1948, and the present outstanding balance of \$143,957,692 accounts for an increase of about \$8,869,000 since last year.

On the other hand, holdings of utilities representing gas, electric light and water company obligations, apparently reflecting the effect of the relatively low yield rates in this class of investment, fell off slightly more than \$6,000,000.

Telephone company bonds showed a slight decrease in dollar volume for the first time since October 1940.

Investments in the stocks of banks and trust companies continued the moderate rate of increase which has prevailed since October 1943.

Slight changes took place in the remaining classifications.

### *Real Estate Loans*

Since the last previous low point in October 1945, when the net book value amounted to \$787,691,700 or 25.24% of total assets, loans on real estate have experienced a continual and accelerating rate of increase, and the present aggregate net figure of \$1,052,586,673 amounting to 28.85% of total assets, reflects an increase of \$96,983,000 over the balance of a year ago. A substantial portion of this increase occurred in the government insured and guaranteed classifications, where the so-called G. I. loans rose approximately \$55,008,000 or 31% to a total of \$232,465,000, and F.H.A. loans increased over \$11,180,000 in dollar amount and 77.67 percentagewise, to \$25,762,800. These two classifications combined, now represent about 25% of the total real estate loan portfolio.

### *Deposits*

During the current twelve months' period, deposits exclusive of dividend credits, aggregated \$686,396,911 reflecting a decrease of \$9,639,737 or 1.38% from the figures of the previous year. Withdrawals for the current year totalled \$713,793,876 which was \$2,523,868 or .35% greater than last year's amount.

Thus for the second consecutive yearly period, withdrawals exceeded new deposits, (excluding dividend credits) the excess for the current year amounting to \$27,397,000 in comparison with the corresponding figure of \$15,233,000 for the previous year.

Again, however, this deficiency was greatly outweighed by dividend credits, with the result that total deposit balances outstanding on the present date exceed the figures of a year ago by \$35,079,518 or 1.10%.

A relatively small increase is reflected in outstanding club account balances.

### *Dividends*

The trend towards higher dividend rates which started during the twelve months' period between October 1947 and October 1948 following many years of declining rates, continued throughout the present year. Thirty-one banks increased their basic rates, while two banks paid their depositors additional portions of earnings through the medium of extra dividends. One bank continued its policy of paying extra dividends. These increases were not confined to banks located in any particular geographical area, but were widely distributed throughout the Commonwealth. During the current year, total dividends declared amounted to approximately \$62,476,400, exceeding the figure for the previous year by \$2,332,000. The average dividend paid in 1949, including extra dividends, was at the rate of 2.03% per annum compared to a figure of 1.97% in 1948.

### *Surplus Accounts*

The gain in net operating income for the period was more than sufficient to offset increases in operating expenses, dividends and net non-operating charges,

with the result that the increase of \$18,823,122 in the combined Guaranty Fund and Profit and Loss accounts, exceeded the corresponding figure of \$18,496,743 for the previous twelve months' period.

These two unallocated reserves for potential shrinkage and loss now aggregate \$373,762,669, or 11.49% of total deposit liabilities including club accounts, which represents the highest point in dollar volume and percentage since savings banks were placed under the supervision of the Bank Commissioner in 1906.

### *Branch Offices*

As of October 31, 1949, thirty-five savings banks held authorizations for maintaining forty-six branch offices, of which forty-two were in operation. As shown in the following table, the four offices to be opened are represented in the six new authorizations granted during the current twelve months' period:

## MUTUAL SAVINGS CENTRAL FUND, INC.

The total resources of this corporation which, under the provisions of statutes, is wholly owned and administered by all Massachusetts savings banks, amounted to \$23,758,857.31 at the close of business October 31, 1949. These assets are divided between a reserve fund amounting to \$3,687,003.67 and an insurance fund aggregating \$20,071,853.64. The reserve fund is maintained for the purpose of furnishing member banks, through the medium of secured or unsecured loans, with additional cash should it be needed to meet unusual withdrawal demands. The insurance fund provides a pool which can be used if necessary, to absorb abnormal or unusual losses sustained by member banks, thereby enabling them to avoid the depletion of their own capital funds to levels that might tend to jeopardize the interests of their depositors.

The statutes relating to this corporation provide that the reserve fund may be expanded if deemed advisable, by assessments on the member banks, to a figure representing 3% of the deposit liabilities of these banks excluding club account deposits. Expansion of the insurance fund is provided for by a yearly assessment on member banks representing one-sixteenth of one per cent of their deposit liabilities exclusive of club account deposits.

Statements of condition of both funds are included elsewhere in this report.

## SAVINGS BANK LIFE INSURANCE

On January 15, 1949, the Essex Savings Bank established an insurance department, thereby increasing to 34, the number of issuing banks in the savings bank life insurance system in this Commonwealth. In addition to the 34 issuing banks, there are 125 savings banks, 7 co-operative banks, 71 credit unions, 17 trust companies and 5 national banks which act as agencies. There are also 257 employer agencies and 5 public agencies such as settlement houses and boys' clubs providing savings bank life insurance services to applicants and policy-holders in their local communities.

As of October 31, 1949, there were outstanding 368,223 savings bank life insurance policies aggregating \$364,674,225, including 157 employees' group policies in force totalling \$27,025,900.

Composite statements and other data relating to the savings bank life insurance system appear elsewhere in this report.
